time_blood_neg_Basophil_day−15vs28_bubble.pdf
cytoplasmic translation
ribonucleoprotein complex biogenesis
cell communication
protein metabolic process
RNA processing
reproductive process
phosphate−containing compound metabolic process
multi−multicellular organism process
negative regulation of signaling
positive regulation of biological process
type I interferon production
cell killing
regulation of immune system process
developmental process
response to biotic stimulus
biological process involved in interspecies interaction between organisms
multicellular organismal process
negative regulation of biological process
response to chemical
response to stress
response to external stimulus
regulation of cellular process
